RESEARCH INTERESTS

Distributed Systems, Cloud Computing, Cloud-Native Infrastructure, Kubernetes, Database Systems, Distributed AI, Natural Language Processing

EDUCATION

Khulna University of Engineering & Technology (KUET) Bangladesh
BSc in Computer Science and Engineering (CGPA: 3.21/4.00) Jan 2020 - Apr 2025

PUBLICATIONS

Conference Paper (In Preparation) June 2026
N-gram Based Bengali Text Compression for Low-Resource Language Processing

TECHNICAL SKILLS

Languages: Go, Python, C/C++, Java, SQL, Bash
Cloud & DevOps: Kubernetes, Docker, Linux
Backend: REST APIs, Kubernetes Operators, Controller Runtime, CRDs
Databases: IBM Db2, PostgreSQL, DocumentDB
Tools: Git, GitHub, LaTeX
Research Areas: Distributed Systems, NLP, Cloud Computing, Distributed AI

WORK EXPERIENCE

Software Engineer 2024 - Present
Cloud-Native Systems Development Dhaka, Bangladesh

- Worked on backend and cloud-native systems development using Go, Kubernetes, and Docker.
- Developed and maintained Kubernetes-based database orchestration systems and distributed infrastructure components.

PROJECTS

Kubernetes Operator for IBM Db2 🐙
Go • Kubernetes • Controller Runtime • CRDs

A Kubernetes operator for managing IBM Db2 database workloads

- Developed a Kubernetes operator using Go and controller-runtime.
- Implemented CRDs, reconciliation logic, and lifecycle automation for stateful database workloads.

Kubernetes Operator for DocumentDB 🐙
Go • Kubernetes • Distributed Infrastructure

A Kubernetes operator for DocumentDB database systems

- Built a Kubernetes operator for DocumentDB database systems.
- Worked on distributed infrastructure automation and cloud-native orchestration.

vspace10pt

RESTful API Development 🐙
Go • Cobra CLI • Docker

Backend API development using Go and containerization

- Developed RESTful APIs using Go, Cobra CLI, and Docker.

Cat Breed Classification (Course Project)

Python • PyTorch • CNN

CNN-based image classifier for multi-class cat breed detection

- Built a CNN-based image classifier for multi-class cat breed detection.
- Trained the model using PyTorch on a dataset of 5000 images.

NLP Research Project

Python • NLP • Bengali Language Processing

Research on Bengali text compression using N-gram based language models

- Conducted research on Bengali text compression using N-gram based language models.

ACHIEVEMENTS

Competitive Programming

Expert on Codeforces, 5-star on CodeChef

- Codeforces: [Sabnaj423](#) – Expert (Max Rating: 1602)
- CodeChef: [Sabnaj42](#) – 5-star (Max Rating: 2022)

Programming Contest Rankings

Notable rankings in national and regional contests

- Ada Lovelace NGPC 2022: Ranked **10th**
- National Girls' Programming Contest 2022: Ranked **8th**
- Intra KUET Programming Contest 2023: Ranked **2nd**
- IUT IUPC 2024: Ranked **36th**

EXTRA-CURRICULAR ACTIVITIES

Vice President

Special Group Interested in Programming Contest (SGIPC), KUET

Feb 2024 - Feb 2025
